

# St. Cuan's College

## ASD 2022

**AUTISM**  
Awareness

Scott Lentine:

Wanting to be free. Wanting to be me. Trying to make people see. And accept the real me.

"Autism is not a disability, it's a different ability."  
— Temple Grandin

St Cuan's College is currently taking enrolments for students who require part-time or full-time access to an ASD class for the coming school year.

We at St Cuan's College offer an educational experience that enables students with ASD to integrate into a mainstream school community whilst also attending an ASD class.

We strive to encourage our students to reach their full potential in a curriculum that is accessible to them as well as catering to their social, emotional and spiritual needs, in keeping with our school's ethos. Classes specifically tailored to the needs of a student with ASD can provide the necessary level of support that is often required outside of a mainstream class.

We consider the needs of the individual and our highly skilled teachers endeavor to educate and develop the student to meet their full potential.

Our team at St Cuan's is fully qualified in the areas of additional educational needs for example, dyslexia, dyscalculia, ADHD and challenging behaviours as well as ASD.

We look forward to welcoming your child to our inclusive school community.

ASD class tours available upon request.
